

Bye Laws / Policies

- Board recommendations to General Assembly June 2012

1. Move from Associate to Full Member subscription \$500

At the time of formation of FIL (August 2008) we did not set the subscription level that would be applicable for a member moving from the Associate to Full Member status. Until such time as a revised subscription structure is in place it is proposed that this be set as follows:

Initial year of the change \$500

and

in subsequent years as per the rate of other members of comparable size (lacrosse programs, clubs/ teams and players).

2. Anti- Doping : Number of tests

Under the current bye laws the numbers of tests that should be carried is “at least one athlete from each team during the Qualifying Round games and one from each team in the Championship game..... unless agreed otherwise by the Board”

This was OK in the early days of testing when the numbers of competing teams were much lower and in some countries was at no cost. This is no longer the case and for example in the 2010 World Championships would have required in excess of 30 tests and 8 days testing. This was prohibitively expensive and different arrangements were agreed

The proposed re-wording of the bye law is

“During World Events, giving due regard to the need for effective anti-doping measurement and the balance of the expense to be incurred, the numbers of tests will be agreed between the Event Organising Committee and the FIL Board.

3. Per-Diem Allowance

Recognising that all Board members and Committee Chairs are volunteers it is proposed that at meetings and events, where hospitality is not provided or centrally funded that a per diem allowance of up to \$25 may be claimed.
